## CAMP STAFF

The Champaign Family YMCA hires highly qualified counselors each spring to provide excellent care and leadership for our campers all summer long. We blend experienced camp staff (most are certified teachers at local school districts) with ambitious college students and select high school juniors seniors. Before being hired, all YMCA staff, including our counselors, are given background and criminal history checks. Counselors undergo extensive training on our policies and procedures, CPR and First Aid, as well as those of the American Camp Association, which, stresses health and safety.
